

Domestic Water Booster Pump Packages

FEATURES:

- **Ready to install**, complete prepackaged engineered system saving time and money.
- **Space saving size**, effectively designed with a small footprint to minimize floor space.
- **Versatility**, 18 different standard sizes and configurations ranging from 50 to 600 GPM, are available to suit your boosting needs. Ten (10) offered as Standard Catalog Items.
- **Performance**, Instantaneous Variable speed performance means consistent operation.
- **Energy Savings**, thru energy-efficient Variable Speed controls.
- **UL-Listed**, Packaged Pumping System and Industrial Control Panel.

EnviroBOOST, Domestic Water Booster Pump Packages are simple and accurate manufactured, ready-to-install systems designed to address the pressure needs of commercial potable water systems. Designed to boost supplied water pressure to a predetermined 60 psig (depending on required output). **EnviroBOOST** is constructed of Stainless Steel, Copper, and Bronze components, making it ideal for Domestic Water use. Capable of handling a wide range of water flow rates and pressures, while being Custom-tailored to your specific site needs, makes this system an ideal choice for either New or Retrofit installations.

All **EnviroBOOST** packages are capable of providing specific pressure and flow, per the attached charts. For other flow rates, pressures, voltages, or configurations please consult the factory.

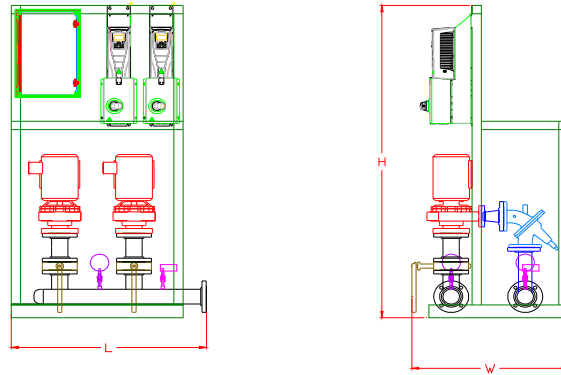

STANDARD CONSTRUCTION

- Enamel-coated Steel Frame
- Stainless Steel Headers
- Close-coupled End-suction Non-Ferrous pumps
- Variable Speed Drives
- Discharge Pressure Transmitter
- Thermal Pump Protection
- Automatic Pump Staging/Alternation
- Touch-screen operator interface
- Factory Hydrostatically and Run Tested
- UL-Listed Package and Controls
- Meets Buy American Act

PACKAGE OPTIONS

- Remote Bladder Expansion Tank
- System Inlet Pressure Switch
- Victaulic Connections

Domestic Water Booster Pump Packages

Standard Pump motors 480V / 3 Phase / 60 Hz. Add 10% for 208V or 230V
Other sizes, voltages, freq, etc. available.

System Based on 30 PSI Boost.

EnviroBoost Duplex Model #	Pump Flow	Pump HP	Header Size (in)	Length (in)	Width (in)	Height (in)	List Pricing
